WORK EXPERIENCE

2015 - Today

GE-AvioAero, Brindisi

Lead Cost Estimator

I'm in charge of estimating the costs of the products and services in order to attract customers. In this role I'm the natural link between different departments of the Company I work for, such as Program Managers, Finance, Sourcing, Manufacturing and the Commercial Departments.

Technical and Influencing skills are mixed in order to coordinate all the activities and information needed to make the estimations which satisfy all the customer requirements in very short term horizons.

2001-2015

GE-AvioAero, Brindisi

Industrial Processes Analyst-Time & Methods Measurement

> I worked on the analysis of all the Company Processes (special processes, engine maintenance, manufacturing...). In this role I was accountable for workforce analysis for different departments. I became expert learnt of Time & Methods methodologies, studying in details manufacturing processes and how to determine their real cycle times.

I improved also my statistical knowledges and I was 6-Sigma Green Belt certified; moreover I was certified Lean Manufacturing Trainer and I participated to different Kaizen Action Work-Outs.

2000-2001

Fiat Avio SpA, Brindisi

Engine Components Inspector

> This has been my first role into aeronautical business: in this role I had the chance to work on engines, guaranteeing the quality of their components and improving my technical skills.

EDUCATION AND TRAINING

2010- SAP Timesheet

2007- Lean Manufacturing for Trainers

Kaizen Team to improve Manufacturing Cells Layout and output

2005- Six Sigma Green Belt

1991- High School Diploma in Electronic Engineering

>
